

*2008 Annual Scientific Meeting  
Australian National Members Society  
International Society for Prosthetics  
and Orthotics*

The Stamford Grand | Glenelg | South Australia | 20-22 November 2008

# Towards Evidence Based Care in Prosthetics and Orthotics

The beachside suburb of Glenelg, located 20 minutes from central Adelaide, will be the home of the 2008 Annual Scientific Meeting of ISPO ANMS. Delegates will enjoy Adelaide's 'city by the sea' where relaxed beach culture and cafes represent the very essence of South Australia.

## Important Dates

Call for papers  
**1st February 2008**

Abstracts due  
**9th May 2008**

Early Bird registration closes  
**1st September 2008**

### **Keynote Speaker**

Dr. Nerrolyn Ramstrand is a senior lecturer and researcher within the Prosthetics and Orthotics program at Jönköping University, Sweden. Dr. Ramstrand is a member of the education committee for ISPO International and a member of the Swedish ISPO steering committee.

In her keynote address titled “clinical problem solving, an evidence based approach”, Dr. Ramstrand will present a critical review of the need for evidence based practice in prosthetics and orthotics together with an overview of the challenges faced by clinicians who wish to integrate the principles of evidence based practice into their daily practice.

The conference will offer a mix of plenary, workshops and free paper sessions.

### **Topics include:**

- Clinical justification
- Neurological orthotic management
- Development in prosthetics
- Clinical case studies
- Fitness and participation – consumer session

Please follow the conference website: **[www.dconferences.com.au/ispo2008](http://www.dconferences.com.au/ispo2008)** as details of this exciting event become available.
