## INTERNATIONAL KEYNOTE SPEAKERS

### A/Professor Melanie Noel, University of Calgary, Canada

Melanie Noel is an Associate Professor of Clinical Psychology at the University of Calgary and a Full Member of the Alberta Children's Hospital Research Institute and the Hotchkiss Brain Institute. She directs the PEAK (Pain Education, Advocacy, Knowledge) Lab within the Vi Riddell Pain & Rehabilitation Centre at the Alberta Children's Hospital in Canada. Dr. Noel's expertise is on children's memories for pain and co-occurring mental health issues and pediatric chronic pain.

### Professor Theodore Price, University of Texas at Dallas, USA

Theodore (Ted) Price PhD is the Ashbel Smith Professor in the Department of Neuroscience at University of Texas (UT) at Dallas. He is the Director of the Center for Advanced Pain Studies. His lab is interested in molecular mechanisms driving the transition to chronic pain with a focus on drug development for chronic pain. He has won numerous awards including the Patrick D. Wall Young Investigator Award from IASP. Ted has published more than 160 peer reviewed studies, and has been continuously funded by NIH for more than 10 years.
