INTERNATIONAL KEYNOTE SPEAKERS

Professor Christine Chambers, Dalhousie University, Canada

Dr Christine Chambers is the Canada Research Chair (Tier 1) in Children's Pain, a Professor of Psychology & Neuroscience and Pediatrics at Dalhousie University in Halifax, Nova Scotia, and a clinical psychologist. She also serves as the Scientific Director of the Canadian Institutes of Health Research's Institute of Human Development, Child and Youth Health.

She is also the Scientific Director of Solutions for Kids in Pain - a national knowledge mobilisation network whose mission is to improve children's pain management.

Professor Cheryl L. Stucky, Medical College of Wisconsin, USA

Cheryl Stucky is the Marvin Wagner Endowed Chair at the Medical College of Wisconsin where she is also Director of the Pain Division of the Neuroscience Research Center.

Dr Stucky's lab studies the molecular, cellular and physiological mechanisms of sensation, particularly how we sense touch and pain. The central theme of Dr Stucky's lab is to study the molecular and physiological mechanisms that underlie somatosensory mechanotransduction in the normal, healthy state and in conditions of tissue injury or disease.
