Professor Allan Basbaum

Allan Basbaum is a professor and Chair of the Department of Anatomy at the University of California San Francisco, USA. His research addresses the molecular mechanisms that underlie the generation of persistent pain after tissue or nerve injury.

Professor Siri Leknes

Siri Leknes is a Professor of Social and Affective Neuroscience at the University of Oslo, Norway and a Senior Researcher at Oslo University Hospital. Her lab, the Leknes Affective Brain lab (LAB lab) studies how the brain and body give rise to pleasurable and painful feelings, and how these feelings are connected to decisions and behaviour.

Dr Amanda C de C Williams

Amanda C de C Williams is Reader (Associate Professor) in clinical health psychology at University College London; consultant clinical psychologist at the Pain Management Centre, University College London Hospital, UK; and research consultant for the International Centre for Health and Human Rights.
