# International Society on **Early Intervention** Conference

International Convention Centre Sydney | 25 - 28 June 2019

The theme of the ISEI 2019 Conference - **Research to Practice in Early Intervention: An International Perspective** is very timely as early intervention programs are increasingly being brought to scale all over the world. This conference will be held in conjunction with Early Childhood Intervention Australia (ECIA), the major professional body in this field in Australia. The conference program will commence with a welcome reception and registration on the evening of Tuesday 25 June, followed by 3 days of papers, posters, symposia, master lectures, and keynote speakers. We welcome your abstract submissions to all sections of the program.

We look forward to greeting you in Sydney during June 2019 at what will be an extraordinary experience for us all, providing a unique opportunity for networking among researchers and practitioners.

**Mike Guralnick**, Chair, ISEI
